

Formula to calculate publication charges

Number of Manuscript authors:

$$\text{Number of authors} = A$$

Registration charges (offline mode) Per person:

$$\text{Registration charges} = ₹ B / \$B$$

Journal APC charges:

$$\text{Charges} = ₹C / \$C$$

Total **registration fee to be paid** at time of manuscript submission:

$$\text{Registration fee} = A * B$$

If shortlisted for publication, then publication charges (P) shall be calculated as:

$$\text{C} - (A * B) = P$$
